Participation by Race & National Origin

Title VI of the Civil Rights Act of 1964 requires recipients of Federal financial assistance to monitor the participation of the program or service by race and national origin. The monitoring of participation will demonstrate that every person has an equal opportunity to participate in the program or service.

To Monitor Participation of Programs Receiving Federal Financial Assistance:

The City must gather racial identity and national origin information in order to provide the USDA with the breakdown of people being serviced by the federally assisted program. The USDA asks for this data periodically as part of a Compliance Review or at other times as deemed necessary.

The USDA must collect the data and be prepared to analyze the information for compliance to Title VI requirements.

The City received financial assistance from the USDA in 1994 for various water and sewer projects undertaken in that year.

The City must gather the statistical racial data needed to be in compliance with Title VI of the Civil Rights Act of 1964.

Please provide the following information so that the City of Sandstone complies with Federal Laws prohibiting discrimination on the basis of race, color, or national origin. You are not required to furnish this information, but are encouraged to do so. This information will not be used in evaluating your request for services or to discriminate against you in any way. *However, if you choose not to furnish this information we are required to note your race/color/national origin on the basis of visual observation or surname.*
